

Intelligent Business Solutions, LLC (IBS) is a professional Business Process Outsourcing, Cost Management and Efficiency Improvement consulting firm located in Georgia. Founded in 2003, **IBS** is an established, Certified Member of the Georgia Minority Suppliers and Distributors Council. (GMSDC) **IBS** is dedicated to meeting the operations and cost management needs of Georgia's legal and business communities by providing blended, innovative solutions that achieve strategic value to our clients.

Our consultants have more than 25 years of proven experience in benchmarking, process improvement, procurement, cost and spend management, which has allowed our clients to experience significant increases in efficiency and operations savings between 20% and 50%. **IBS** stands out from our competitors by working with our clients on a pay-per-performance basis. We earn our fee when our proposal is accepted and implemented. In those rare instances when worthwhile savings are not found – our clients pay nothing and receive the satisfaction of confirming their operations are running efficiently and cost effectively.

"your **solution**
in **one** call"

Define:

We initiate our client relationships by facilitating a conversation that draws out each need and concern. Constraints and opportunities are discussed and documented in order to determine all applicable solution choices.

Solution:

After the completion of our thorough Efficiency and Cost Analysis, we will use our collective expertise, experience and networks to provide multiple innovative solutions that will address each need and offer impressive savings from 20% - 50%. Because our fees are dependent upon our client's sustainable cost reduction and improved operations efficiency, we exhaust all possible solutions for our client's consideration.

Implementation:

Upon the selection and acceptance of our proposal, we begin the implementation process. Regardless of the size or duration of the project, IBS's aim is to meet our client's superior service and savings expectations. We follow Best Practices in project process management and effectively communicate throughout the entire project.

Monitor:

Any cost management plan is only as good as the measurable results it achieves. With outlined measurement guidelines in place, IBS and our clients are able to track, adjust, compare, support and confirm actual process improvements and cost reduction success. Our success depends on your success.
